Body Treatments

Thai Body Massage (1hr)

Thai Massage is a natural therapy that relaxes muscles, increases energy flow, improves circulation, and stimulates nerves. Once the blood flow is stimulated, a rapid rebuilding and nourishing of the body's tissues is a result. Thai Massage benefits: stiff,

sore or pulled muscles and ligaments, back pain, arthritis, chronic pain or injury, internal organs, migraines and chronic stress or anxiety.

Body Exfoliation

Exfoliation is an essential step in skin care. When you exfoliate, you're sloughing off dead skin and exposing the fresher, brighter, younger cells beneath, as well as helping in its natural renewal process. Exfoliation also helps to improve the circulation and encourages the release of toxins from your body. It allows essential oils and moisturizers to penetrate more effectively leaving your skin feeling silky soft and radiant.

\$90.00

Hot Stones Massage

The hot stone experience can relieve pain; promote harmony and balance within the body. The addition of aromatherapy and soft music to this therapy has an amazing effect on mood and heightens feelings of well-being.

\$70.00

Deep Tissue Massage

Deep Tissue Massage is a massage technique that focuses on the deeper layers of muscle tissue. It aims to release the chronic patterns of tension in the body through slow strokes and deep finger pressure on the contracted areas, either following or going across the fiber's of the muscles, tendons and fascia.
